Information Needed To Apply for Goals 2000 LRI and PPPD Only

Requirements

Evaluation Criteria

Grant Agreement

Sample TLCF Year-End Report TLCF Application Forms

Information about the Application

The Application

- Year-end reporting on 1999-2000 TLCF grant activities is combined with reapplication.
- The progress report and the year-end financial statements for TLCF are required by the grant deadline even if the district chooses not to reapply for one or both of the competitive grant awards.

Evaluation Process and Criteria

- Each proposal will be evaluated by three peer reviewers, who will use the attached numeric criteria to rate each proposal.
- ➤ Grant awards will be made by the Commissioner of the Department of Education based on numeric scores and available funds. The Department of Education may negotiate final award amounts based on numeric evaluation results and availability of grant funds.
- Per Pupil Professional Development funds are not competitive and will be received by the district regardless of the status of its other proposals. However, information provided in the proposal to report on PPPD funds will be evaluated by the readers as part of the evidence of Learning Results implementation activities.

Funding Levels and Allowable Expenditures

- Districts are eligible to compete for \$15,000 in Goals 2000 LRI funds, plus the district's per pupil professional development allocation.
- Goals 2000 and PPPD payments should not be expected until at least October 2000.
- Negotiated revisions to any components of the application lengthen the payment process.

Per Pupil Professional Development Funds (PPPD)

- Allocations for each district are in the pink packet included with the application.
- Allocations in column 1 of the table are at the current level of \$1 m illion (already appropriated).
- Column 2 allocations are based on a proposed increase of \$1 million (pending in the current legislative session). Districts will be notified about the final appropriation as soon as possible.
- A consortium is defined as at least two districts which are working together on professional development activities to implement the Learning Results. School Unions working alone cannot apply as consortia. Partners in the consortium must be listed on the application cover page.
- School Unions must apply for PPPD funds with a joint plan. The union may distribute PPPD funds on a per pupil basis to each school in the union, or use the funds to support union -wide Learning Results professional development activities, or some combination of t he two. A single payment will be made to the district.
- Questions about this calculation should be directed as soon as possible to Sarah Simmonds (287-8281); sarah.simmonds@state.me.us.

Allowable Expenditures

- Equipment purchases will not be supported with Goals 2000 LRI or PPPD funds.
- Software to support the management of Learning Results implementation can be charged to Goals 2000, but not to PPPD.
- Administrative costs (clerical support and supplies, and accounting fees) cannot exceed 5% of the amount budgeted for Goals 2000.
- Maine State Retirement benefits must be included in the Goals 2000 budget. These costs
 cannot be shared across budgets by listing salaries in one budget and the benefits associa ted
 with them in another. In addition, any other benefits specified by the local collective bargaining
 agreement must be applied to all salaries, stipends and honoraria in the circumstances and in
 the amounts covered in the agreement.

Direct questions and concerns about allowable expenditures to Heidi McGinley (287 -5986); heidi.mcginley@state.us.me.

Required Components to Apply Only for Goals 2000 LRI Grant and PPPD Funds

Basic Information (not evaluated):

- □ The cover page Indicate which grants the district received during the 1999 -2000 school year, how much was received, and how much has not been expended. Add unexpended funds to the district's new requests in each category.
- □ The information page
- School board signatures
- □ Superintendent's signature on the second page of the appropriate grant agreement

1. The Design Team:

- □ 1. A. Describe the design team's roles and responsibilities.
 - **B.** Not required
- **2. Progress Reports:** Report on the district's progress in achieving its 1999-00 TLCF indicators of success
- □ **A.** Complete the table for each indicator for the 1999-2000 grant year. Reference supporting portfolio evidence for progress in column 6 of the chart.
- **B.** Respond to the additional federal TLCF report questions.
- □ **C.** Year-end Financial Statements: Complete the TLCF and PPPD sections. Note that expenses listed in the "obligated" column are those for which you have made a promise to pay. These activities may not have taken place when the proposal is submitted.
- Attach a single page to explain why funds were not expended as expected in each category.
- Unexpended TLCF grant funds: Attach action steps and a timeline from the local technology plan to describe how the unexpended funds will be used.

3. The self-Assessment:

- □ A. Check those indicators in the "Student Learning" area and in each section of the "Climate Supportive of Change" area that describe where the district currently stands with Learning Results implementation. Disregard the technology -related indicators if you wish. In the blank columns embedded in the self-assessment, tell the readers where to find the supporting portfolio evidence for each checkmark. Submit the checked self-assessment pages with the application.
- Plot the district's current position on the two self-assessment grids.
- □ **B.** In a narrative of 10 pages or less, explain how the information from the progress report and the self-assessment update lead to the district's next steps. Include:
 - 1. A summary of current conditions across the district based on the self-assessment and the progress report.
 - 2. A description of how the self-assessment findings and the progress report illustrate what the district's next steps are in Learning Results implementation.
 - 3. Not Required.
 - 4. Not Required.
 - 5. Identification of several impact areas or goals and why they are necessary to the district's Learning Results implementation efforts.

4. The Action Plan:

A. Impact Areas

- 1. List impact areas or goal statements identified as a result of the progress report and the self-assessment update, and identified in the self-assessment narrative. Impact areas can also be thought of as leverage points key areas of activity that impact many aspects of Learning Results implementation.
- 2. Measurable indicators of success in making progress toward the goal or in the impact area. A description of how to write measurable indicators is included in the application. The district will be asked to use these indicators to report on its progress at the end of the grant period.
- **3.** Evaluation: describe how data will be collected to assess each indicator.
- **4.** Products: list the concrete products expected as a result of the planned activities.
- B. Action Steps for each impact area or goal:
- □ 1. List the steps.
- **2.** Describe when each step will be completed.
- **3.** Costs: Whenever possible, include the actual dollar amounts to be expended for each step from Goals 2000 LRI and PPPD and other sources.

□ C. Budgets:

- Complete a line item budget for Goals 2000 LRI and PPPD. The total amount for each f und is the expected award plus any unexpended funds from the previous grant year. Make sure that the action plan includes activities supported by the unexpended Goals 2000 LRI and PPPD funds. TLCF action steps using any unexpended funds should be include d with the year-end financial statement described above.
- □ If a detailed description is not possible within the space allotted on each line, attach one.
- Complete the monthly payment form for the new amount requested for Goals 2000 LRI only.

STATE OF MAINE DEPARTMENT OF EDUCATION Learning Results Implementation GRANT AGREEMENT

This agreement made this 1st day of September 2000etween the Department of Education ("the Department") and ("the school system").

WHEREAS, the Department in the exercise of its lawful functions has determined that your grant will stimulate, foster or encourage improvement in the schools of the State and serve as models for other schools and,

WHEREAS, the school system has determined that the proposal will advance systemic change which enhances the learning of school children,

NOW THEREFORE, in consideration of the mutual agreements and provisions herein contained, the parties hereto agree as follows:

- 1. The Department will award a Learning Results Implementation of to the school system for the purposes described in the grant application, which is hereby incorporated into this Agreement and made a part thereof.
- 2. Grant funds shall be expended by the school system between September 1, 2000 and August 31, 2001. Any funds not expended or obligated prior to August 31, 2001 shall be returned to the Department for reallocation.
- 3. Expenditures of grant funds by the school system will be in accordance with Maine law and applicable ordinances, rules and policies.
- 4. Financial and other records relating to the proposal will be maintained by the school system for at least three years from completion of the proposal and made available for review, upon request, to the Department.
- 5. Amendments to the approved budget which exceed 20% on any line or any programmatic components of the proposal must be approved in advance by the Department.
- 6. The school system will designate a grant coordinator who will have supervisory responsibility for the proposal and will function as the liaison person with the Department.
- 7. The school system will develop and maintain a portfolio of all grant related activities. The Department may examine the portfolio at any time to evaluate progress on the grant. In any case, a final report and a portfolio of grant related activities will be received by the Department no later than September 30, 2001..
- 8. In consideration of the grant award, the school system agrees to include in all promotion and publicity concerning the proposal, the following minimum credit line: "with support of the Department of Education through a Learning Results Implementation grant."
- 9. Any publications relating to the proposal by the school system shall also include, in an appropriate place, a statement that the findings, conclusions or recommendations do not necessarily represent the view of the Department.
- 10. One copy of any printed publication resulting from the proposal must be furnished to the Department. One copy of any software, film, videotape, audio tape, record or any other audio-visual materials produced as part or as an outgrowth of the proposal must also be furnished to the Department.
- 11. The Department reserves an non-exclusive license to use and reproduce for public purposes, without payment, any publishable matter, including copyrighted matter, arising out of grant activities. The school system shall retain a non-exclusive license to use and reproduce the materials, without payment, for the use and benefit of the school system. A copy of the agreements shall be filed with the Department.

- 12. The school system will submit a full accounting of expenditures and a final report to the Department within 30 days of the completion of the proposal but in no event later than August 31, 2000.
- 13. Financial records of the proposal will be reviewed in the annual audit of school system expenditures and any deviations, discrepancies or questioned costs will be reported to the Department, with a copy of the auditor's report.
- 14. The Department may monitor the proposal on site and evaluate its progress and results independently of the school system's evaluation.
- 15. If the Department determines that the approved grant proposal cannot be completed as proposed, it may terminate the grant award and all unexpended or unobligated grant funds and any purchased equipment and materials shall be returned to the Department. No such termination may take place until the school system has been notified of the Department's intention and has had an opportunity to respond.
- 16. The Department and the school system may mutually agree to terminate the proposal at any time. If this occurs, all unexpended or unobligated grant funds and any purchased equipment and materials shall be returned to the department.
- 17. The Department may withhold or suspend payment of the grant award or require repayment of grant monies already spent upon a finding that grant monies will be or have been improperly spent, the required reports have not been filed in a timely manner or that the proposal is otherwise not in compliance with applicable law. No penalizing action will be taken until the school system has been notified of the alleged violation and has had an opportunity to respond.
- 18. The Department may withhold or recover payment of all or part of the grant award if the school system is found, after an adjudicatory proceeding or adjudication to be in violation of the Maine Human Rights Act, the Americans with Disabilities Act or the Federal Civil Rights Act during the project period.
- 19. The grant award will become effective upon execution of this document by all parties.

Date	Commissioner, Department of Education
Date	Grant Coordinator, Department of Education
September 1, 2000	
Date	Superintendent of Schools (Fiscal Agent)

Submission, with the application, of a signed copy of this agreement is for the sole purpose of expediting the distribution of funds to districts to whom grants are awarded in accordance with the evaluation criteria and in no way commits the department to making an award to the applicant.

Numeric Evaluation Criteria

1.Design Team

0		1		2		3		Points
A.	No list of members is included.	A.	The design team membership does not include a parent . A few of the stakeholders impacted by the team's work are represented.	A.	The membership list includes a parent, and represents most of those impacted by its work.	A.	The design team includes representation from all schools, administrators, teachers, and at least one parent.	
B.	No roles or responsibili ties are described.	B.	Some of the roles and responsibilities of the design team are unclear.	B.	The design team's roles and responsibilities are clearly explained but loosely related to Learning Results implementation in the district.	B.	The design team's roles and responsibilities are clearly essential to Learning Results implementation in the district.	
						To	tal 6	

2. A. Self-Assessment and B. Identification of the Next Steps (Narrative)

0		1	1	2		3		Pts.
A.	The self-assessment pages are missing or incomplete. Little or no evidence is provided to support the checked descriptors. There is no explanation for the missing evidence.	A.	The self-assessment pages are complete. Most of the evidence provided does not support the checked self-assessment descriptors. Some explanation is included to account for missing evidence.	A.	Most of the evidence supports the checked self-assessment descriptors. Complete explanations are provided to account for missing evidence.	A.	All of the evidence provided is necessary and sufficient to support the checked descriptors.	X 2
B.	The district's placement on both continua is unwarranted given the checked indicators and the supporting evidence.	B.	The district's placement on both continua is confusing given the checked indicators and the supporting evidence.	B.	The district's placement on one or both of the continua is justified by most of the supporting evidence.	B.	Placement on both continua is consistently supported by the evidence.	X 2
C.	The narrative does not connect the progress report or the self-assessment to identification of the district's next steps.	C.	The narrative partially connects the self-assessment or the progress report to the next steps.	C.	The narrative supports the connections between the self-assessment findings, the progress report and the next steps.	C.	The narrative clearly describes a process of analyzing the evidence of the current situation as the method of identifying the next steps.	
D.	The narrative describes conditions in a single school, at a single grade span, or among a small population of students or staff.	D.	The narrative describes conditions in some schools, grade spans or populations.	D.	The narrative partially describes conditions across the system, and identifies some systemwide approaches to Learning Results implementation.	D.	The narrative describes systemwide conditions and identifies systemwide approaches to Learning Results implementation.	
	Impact areas or goals are not identified in the narrative.		The impact areas or goals identified in the narrative are not supported by the description of the current situation.	E.	The impact areas or goals identified in the narrative are partially supported by the description of the current situation.		Key elements of the current situation are directly connected to the identified impact areas or goals.	
F.	The narrative does not include a description of how technology is connected to Learning Results implementation.	F.	The narrative's description of the connections between technology and Learning Results implementation is not related to the self-assessment findings.	F.	The narrative's description of the connections between technology and Learning Results implementation is partially supported by the self-assessment.		The connections between Learning Results implementation and technology use are clearly based in the district's analysis of the self-assessment findings. tal 24	

3. Action Plan (Cost Effectiveness)

0	`	1	,	2		3		Points
A.	The indicators are not measurable.	A.	Some of the indicators are measurable.	A.	Most of the indicators are measurable.	A.	All of the indicators are measurable.	
B.	The data collected to evaluate progress toward the indicators will provide little or no supporting evidence of progress at the end of the grant period.	B.	Most of the data collected to evaluate progress toward the indicators will provide some evidence of progress at the end of the grant year.	B.	The data collected to evaluate progress toward the indicators will provide most of the evidence necessary to support progress at the end of the grant period.	B.	The data collected to evaluate progress toward the indicators will provide necessary and sufficient evidence of progress.	
C.	The data to be collected will not help the district identify its next steps.	C.	Some of the data collected will help the district identify its next steps.	C.	Most of the data collected will help the district identify its next steps.	C.	The data collected will lead directly to identification of the district's next steps.	
D.	The action steps are unconnected to the indicators.	D.	Some of the action steps are connected to the indicators.	D.	Most of the action steps are necessary in making progress toward the indicators.	D.	All of the action steps are necessary in making progress toward the indicators.	
E.	Proposed expenditures are not connected to the action plan.	E.	Proposed expenditures support some of the action plan.	E.	Most proposed expenditures support the action plan.	E.	Funds from all sources support the action plan.	
F.	Expenditures are not cost effective.	F.	Some expenditures are cost effective.	F.	Most expenditures are cost effective.	F.	sources are cost effective.

Instructions for Completing the Required TLCF Year -end Report TABLE 4: Educational Technology Goals for the Subgrantee

1. Goals	Measure (how was data collected?)	3. Date and baseline status (June 1999)	4. Date and current status (June 2000)	5. Three-year subgrantee goal	6. Portfolio Evidence
Measurable benefits/indicators from local plan/1999-00 TLCF application.	Examples: staff surveys, logs of student computer use, purchase orders, feedback sheets from training session.	What was the situation regarding this goal at the beginning of the grant period? Examples: no training was offered, computer ratio was 55:1, 50% of the teaching staff were at the novice stage of development.	What was the situation like as you began the second year of the grant? Examples: 50 teachers trained to use Internet, ratio of 15:1	What is the long term goal in this area in the local technology plan?	

4c. **State Technology Plan**. How are the subgrantee's educational technology goals aligned with the state's educational technology plan? Maine's technology plan goals:

- 1. Each student will have ready access to technology which supports the learning, application and demonstration of the Guiding Principles and the content standards and performance indicators of the Maine Learning Results.
- 2. Educators will be fluent with technology and effectively use it to enhance teaching and learning.
- 3. All levels of the public education system will have the capacity to track Learning Results implementation and the relationship of technology use and student achievement.
- 4. Technology will be integrated into state and local consolidated plans to implement the Learning Results.

- 4d. **Subgrantee Learning Goals**. How do the subgrantees' educational technology goals support the subgrantee's learning goals? Coordinators who attended the October 27 and 28 1998 meetings generated a list of possible connections:
- the district is working to implement the Maine Learning Results and technology is helping us do that
- we are developing local learning results -- especially in technology -- or are infusing technology into local curriculum development
- technology is helping us manage curriculum, instruction and assessment changes across schools and grade levels
- technology is helping us connect Goals 2000, IASA, and district long-range planning.
- the district's vision for all students includes technology as an essential tool for learning

4e. Use of Funds.

Table 5: Use of Funds

1. Primary use of TLCF	2. Grade levels	3. Content areas	4. Number of Students	5. Number of teachers
award	primarily impacted.	primarily impacted	impacted	impacted
There seem to be five major uses of TLCF grant funds: equipment, professional development, coordination, infrastructure, and software. Complete the chart this way:	List any combination of grade levels which were actually impacted	(see the glossary for a definition of "content areas" provided by the US Department of Education)	at each grade level	at each grade level
Equipment	K-6	all	42	8
	9-12	science and math	103	15
Professional	K-12	all	230	58
Development				

4f. **Strategy.** Please explain how the use of the TLCF award and partnerships with businesses, libraries, and other public and private entities have helped the subgrantee accomplish its goals.

A list of the possible impact of partnerships was also generated in October 1998:

- partners provided additional resources and expertise
- were active planners and shared responsibility for the implementation of the local technology plan
- built community and board support for technology use in the district
- provides teachers with information about how technology is used in the "real world"
- adult education partners make it easier to teach parents and community members more about technology
- working with local libraries:
 - · reinforces skills for students outside the school
 - creates a seamless transition from school to community organization for students and parents
 - helps adults learn to use technology
 - promotes lifelong learning in the community
 - helps to make local to global connections for community members

- 4g. *Four Pillars.* Please circle the appropriate number on the scales below to indicate the subgrantee's progress toward the 4 pillars for educational technology as a result of all funding sources (federal, state, local).
- 1. All teachers in the nation will have the training and support they need to help students learn using computers and the information superhighway.

Baseline (June 1999)

1	2	3	4	5		
No member of the teaching workforce participating in ongoing training and receiving support	1 - 49%	Half of the teaching workforce participating in ongoing training and receiving support	51 - 99%	Entire teaching workforce participating in ongoing training and receiving support.		
In this box, indicate the situation in the district before receiving the TLCF grant.						

By June 2000

How had the situation changed by the end of the first grant year? Write in the unique percentages below if the descriptions don't match the progress		
made.		

2. All teachers and students will have modern multi-media computers in their classrooms.

Baseline (June 1999)

1	2	3	4	5
All classrooms with a student to multimedia computer ratio greater than 21:1		All classrooms with a student to multimedia computer ratio of 13:1		All classrooms with a student to multimedia computer ratio at or less than 5:1
See the directions for the first national goal above.				
By June 2000		T		

3. Every classroom will be connected to the information superhighway.

Baseline (June 1999)

1	2	3	4	5
Less than 14% of		55% of classrooms		All classrooms
classrooms connected		connected		connected.
See the above				
explanation				
By June 2000				

NOTE: The TLCF coordinators who met in October 1998 had difficulty understanding what this goal meant, so we created definitions for some of the key terms:

Effective -- helps students reach the learning goal an is used relatively easily.

Engaging -- students can use it to do work

Integral -- part of the lesson plan (not a special event)

4. Effective and engaging software and on-line learning resources will be an integral part of every school's curriculum.

Baseline (June 1999)

Dascille (Julie 1999)			T	T
1	2	3	4	5
Not in use in any areas		in use in half of the		in use in all core
-		content areas		content areas
By June 30, 2000				

4h. *Evaluation*. Describe the process for the ongoing evaluation of technology integration and its effects on student achievement and progress toward meeting the National Education Goals and challenging state content and performance standards.

Describe who will have responsibility for evaluation and what will happen to any data collected about progress. Does the data go to the technology committee? the school board? the superintendent? Are there any links between technology use and student achievement that teachers are willing and able to document? How and what? (It is likely that there will not be any real proof of student achievement gains and that it too early to look for any.)
